Re: **Request for Further Extension of Time to File Construction Permit Application**
Station WHP(FM), New Market, Alabama
Facility Identifier Number: 65223
MB Docket No. 03-244, RM-10825

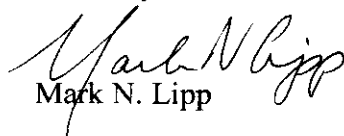

Dear Ms. Dortch:

Transmitted in triplicate on behalf of Cumulus Licensing LLC ("Cumulus"), the licensee of Station WHP(FM), is its request for a further extension of time to electronically file a construction permit application on FCC Form 301 to implement the rule making identified above. The additional time is necessary to allow Cumulus to negotiate an agreement with the tower owner at a transmitter site Cumulus has identified.

By way of background, the Commission issued a *Report and Order* on June 25, 2004, in the aforementioned proceeding that amended the FM Table of Allotments to include Channel 227C2 at New Market, Alabama and advised the licensee of Station WHP(FM) to submit a minor change construction permit application within 90 days to specify this new channel and community of license. Cumulus has contacted a tower owner about tower space, but needs additional time to work out the details. The licensee, therefore, respectfully requests a sixty (60) day extension of time to file its construction permit application for Channel 227C2 at New Market, Alabama.

If there are any questions about this Request, please contact undersigned counsel for Cumulus Licensing LLC.

Sincerely,

Mark N. Lipp
